

2019
Lake Pleasant Public Library
Letter to the Community

During 2019, the Lake Pleasant Public Library worked hard to make the experience of our patrons the best it could be. Through our collection selection, we have been able to provide our patrons with some of the best books, CDs, audiobooks, and DVDs. Choosing items for our collection is important to us and our yearly numbers reflect this trend.

Each year we bring programs to our community which is community-focused, covering a range of programs from the Utica Zoo, to authors, map & compass classes, Homespun Dances to name a few who entertained and enlightened us. We presented an art show which raised over \$200 and showcased local artists. We opened our doors for Halloween and each year we help local businesses with our Holiday Stroll, now a family event.

We provide our community not only with a place to meet, but also to engage in learning, to share ideas, and build partnerships. Our monthly programs including story-time, Lego Club, dance class, and painting class giving members of our community a place to connect, meet new people and offer our older population a place to read, visit and make new acquaintances.

If you are of a mind that thinks we are becoming obsolete, then you don't know what we do. Come and visit us, sign up for a card, check out books, music, and movies. And while you are checking out, take a look at your receipt and it will tell you how much money you have saved by using our services.

Remember: Libraries change lives and build communities.
